

## Ambassador Bernadette Modeste Cardell

Ambassador Cardell is a Global Prayer Partner. She serves as a spiritual mentor and coach within a global strategic prayer network that spans the globe. This network consists of an army of intercessors who unite to pray for various needs and issues. They often employ a focused, planned approach to strategically direct their prayers toward specific regions, situations, or causes. By coordinating efforts across different time zones and locations, they function as a cohesive network of intercessors working together under a strategic prayer plan to influence global circumstances through prayer. Ambassador Cardell will serve on the leadership team of the PNP and accelerate its local, regional, and international mandate through her prayer network as we focus on restoring human dignity and a sound spiritual awakening to the nation.

### **Key points about a global strategic prayer network:**

- **Focused prayer:** Unlike typical prayer groups, a strategic network identifies specific needs or areas to focus their prayers, often guided by current events or mission priorities.
- **Global reach:** Members of the network are spread across different countries and continents, allowing for continuous prayer coverage around the clock.
- **Coordination and organization:** A structure is often in place to coordinate prayer efforts, including assigning specific prayer topics to different groups or individuals.
- **Information sharing:** Networks may share updates and prayer requests from different regions to inform prayer focus. Examples of scenarios where a global strategic prayer network might be used:
  - Praying for persecuted Christians in specific countries
  - Interceding for the success of mission initiatives in various regions
  - Praying for healing and restoration in areas affected by natural disasters
  - Advocating for political leaders to make decisions aligned with biblical values
